<b>W</b> hy <b>I</b> nstruction <b>N</b> ever <b>G</b> oes <b>S</b> outh	<b>In 1996 there were 1,907 General Aviation (GA) accidents. Of all these accidents, only 2 involved pilots who had participated in the WINGS program during the previous 12 months! Each accident had an average cost of \$30,000 dollars. Just looking at this information, isn't it worth the 3 flying hours and a safety meeting to avoid a costly accident? Participate in the WINGS program. It's better than a BFR</b>

**WINGS - Congratulations to WINGS recipient Mary Ann LePage who achieved WINGS Phase I. (October) and Penrod Turk who earned Phase IX WINGS in July.**

**More congratulations to Mary Ann for passing the following knowledge tests on July 8, 2000: Instrument Rating-Airplane (97), Flight Instructor-Instrument Airplane (96) and Instrument Ground Instructor (96).**

**The State Wings Contest runs from April 1st thru March 31st each year. Let's make the WINGS year WINGS Safe. All it takes is one hour of air work, one hour of takeoffs and landings, one hour of instrument and a safety meeting. It is the responsibility of each chapter WINGS Chair to keep track of all their WINGS participants. So -- please -- keep Chapter Wings Officer, Penrod Turk, informed upon the completion of any phase.
