President's Message "MO Plates"

Once the specialty license plate design is approved by the organization and the Department (and prior to the issuance of any specialty plates), the organization must collect, and submit to the Department for processing, the following

200 completed copies of the Application for Personalized and Special License Plates (Form 1716)

The \$15 specialty license plate application fee submitted to the organization by each applicant for his or her plate.

Actual production of the plate will begin when the Department receives 200 completed applications and ap-

propriate fees. The organization will collect the applications, and when it has 200, will forward them to the Department for processing.

Once production begins, subsequent applicants will submit their specialty license plate requests directly to the Department.

A partially completed Form 1716 is available on our website at:

http://mopilotskc.org/wp-content/uploads/MO_License_Plates/Missouri%20Form_201716_for_Missouri_Pilots_Association_License_Plates.pdf

You can fill in the necessary blanks online and then print it out

January Program

“Little Weather for Little Airplanes”

Speaker: Chris Hope

Chris Hope

Chris' first flight was in the back seat of an Air Force T-33 in the summer of 1965 when he was an incoming cadet at the U.S. Air Force Academy. And he was hooked. He attained a Private Pilot license prior to graduation, and before leaving the Air Force in 1977 he added a Commercial license with an instrument rating for single and multi-engine aircraft. In the years following, he added an ATP rating, as well as instructor ratings for single-engine land and sea airplanes, multi-engine airplanes, and instruments.

He holds Master CFI and FAA Gold Seal CFI designations. He has been a member of the FAAS team for the past 15 years or so, and was named FAAS team member of the year in 2015.

A more complete bio, as well as Chris' thoughts on various aviation topics, visit www.ChrisHopeFAAflightinstructor.com
